SUMMARY

Software Engineer specializing in **Front-End Mobile and Web Development** using **React Native, React,** and **TypeScript**. Full-stack trained with experience collaborating with backend teams to build scalable applications, integrate RESTful APIs, and deliver clean, user-focused UI/UX.

TECHNICAL SKILLS

LANGUAGES	TypeScript JavaScript (ES6) TSX JSX HTML5 CSS3 Python SQL Java
FRAMEWORKS & LIBRARIES	React Native Expo React Next.js Vite NativeWind TailwindCSS Node.js Express
DATABASES	MongoDB MySQL
CLOUD & TOOLS	EAS Build Xcode Android Studio Figma Vercel Git GitHub Postman Jira

TECHNICAL PROJECTS

Track My Chores, Front-End Mobile Engineer (React Native, Expo, JavaScript, JSX) **Jun 2025 - Present**

A mobile task management app with parent and kid interfaces

[Apple App Store](#) | [GitHub](#)

- Engineered 30+ unique screens with 2 distinct user interfaces using React Native, Expo, JavaScript, JSX, and NativeWind to deliver a high-performance, responsive experience for parents and kids on iOS and Android.
- Translated 60+ high-fidelity Figma mockups into pixel-perfect React Native components in collaboration with UI/UX designer, reducing front-end iteration time.
- Implemented light and dark modes with responsive layouts across phones and tablets, enhancing accessibility and ensuring a consistent user experience across devices.
- Collaborated remotely with a back-end engineer via daily discussions, calls, and GitHub to integrate MongoDB, Node.js + Express, Cloudflare R2, JWT authentication, push notifications, transactional emails, and Agenda cron jobs, enabling secure, scalable task automation.
- Delivered features through Agile workflows, weekly client consultations, and daily team syncs, accelerating development speed and ensuring alignment with client expectations.

Helena's Portfolio, Front-End Engineer (React, Next.js, TypeScript, TSX, TailwindCSS) **Mar 2026**

A responsive portfolio website built in collaboration with a UI/UX designer

[Website](#) | [GitHub](#)

- Converted 12 Figma mockups into precise React components using TypeScript (TSX) and TailwindCSS, collaborating with a UI/UX designer to ensure design accuracy and consistent visuals across all pages.
- Built intentionally distinct desktop and mobile layouts using TailwindCSS responsive utilities, delivering a polished user experience across devices and screen sizes.
- Developed a multi-page Next.js 15 portfolio site, structuring pages and implementing navigation links to deliver a clear, professional presentation.

Yosemite Reservations, Full Stack Engineer (React, Next.js, TypeScript, TSX, Node.js, MongoDB) **Jul 2025**

A responsive full-stack app for booking Yosemite campsites with NPS API integration

[Website](#) | [GitHub](#)

- Engineered a type-safe full-stack application using TypeScript across a Next.js 15 frontend and Node.js/Express backend, integrating REST APIs and JSON data to enable seamless client-server communication.
- Built CRUD functionality for user reservations in an Express backend, strengthening frontend development through a deeper understanding of data flow and backend systems.
- Integrated data from the National Park Service API into a React frontend, parsing JSON responses and rendering dynamic content through custom components.
- Orchestrated end-to-end deployment using Vercel (frontend), Render (backend), and MongoDB Atlas, leveraging a GitHub monorepo to enable automated deployments and continuous integration.
- Developed JWT-based authentication using HttpOnly, secure cookies, protecting user sessions and restricting client-side access to sensitive data.

PROFESSIONAL EXPERIENCE

FP Movement **Jan 2025 - Present**

Assistant Manager

Tiburon, CA

- Consistently exceeded personal and team sales goals by delivering exceptional customer service, understanding customer needs, guiding solutions effectively, and maintaining professionalism with all clients.
- Acted as Manager on Duty, assigning team responsibilities based on strengths and task urgency, maintaining high-quality service and achieving 100% of daily operational goals.
- Trained and coached 10+ employees, educating them on product knowledge and customer communication through role-playing exercises, improving problem-solving, team productivity, and customer satisfaction.
- Participated in weekly management meetings to analyze sales metrics, sharing insights and suggestions to improve customer experience and team performance.

Red Dragon Yoga

Oct 2023 - Jan 2025

Assistant Manager

San Rafael, CA

- Managed daily operations of a hot yoga studio and retail storefront, interacting with 150+ clients per day and delivering exceptional customer service while ensuring smooth, efficient operations.
- Handled 20+ daily customer support emails, resolving issues, de-escalating conflicts, and providing tailored solutions, contributing to improved client retention and satisfaction.
- Led team adoption of software tools, providing hands-on guidance, troubleshooting issues, and training employees to improve operational efficiency, internal collaboration, and overall team productivity.

EDUCATION

Coding Dojo, Colorado Technical University

Oct 2024 - Jul 2025

Full Stack Development Certificate

Remote

- Immersive Full-Stack Training Program in HTML, CSS, JavaScript, Python, MERN, and Java

University of California, Santa Cruz

2014 - 2018

B.A. in Environmental Studies, Minor in Sustainability Studies

Santa Cruz, CA

- Cumulative GPA: 3.7, Cum Laude Honors, Department Honors, 5 Dean's Honors Awards
